

HEALTH AND SAFETY WEEK 2021

As part of the Vinci Energies Safety Week 2021, North West Projects' leadership team have been holding workshops throughout the week with the entire workforce.

Health and Safety is of utmost importance and all workshops have the goal of communicating with the teams and identifying improvements for our 'Never Walk Past' Safety initiative. Since its launch in 2018, there have been some great collaborative suggestions made around not only Safety, but also Quality within our business.

This week we have had some great discussions around 'Understanding Procedures', 'Risk Perception' and 'Learning From Experience', helping us to achieve Safety Excellence.
